Sir,

Subject -Creation of the post of an Egg-Grader on P 30/- in connection with the introduction of compulsory egg-grading in Mysore city

With reference to your letters Nos 10481/28-10-1947 and L11411 1-12-1947 calling for information on certain points I have the honour to state as follows -

1 What is the amount which is likely to be realised per annum by the levy of a charge for grading of eggs at 1½ annas for 100 eggs or part thereof

As the grading will have to be done throughout the whole city, an annual income of Rs 800/- - 900/- is expected

2 Would the byelaws be operative only for the Devaraja market or for all the markets in the city and if so, how can one Egg Grader attend to this work for the entire City?

It would be operative in all the markets and places where eggs are sold The Egg-grading station is located in the Devaraja market premises Any person before offering for sale, any egg anywhere in the city, should first get it examined and graded by the Egg-grading staff in Devaraja market and then remove it to the place where he usually sells them

3 When the byelaws/introduced, Was it not the understanding that the officers of the Marketting department would attend to this work? And if so, why should the extra expenditure be incurred in this behalf by the Municipal Council?

This Municipality was under that impression, but subsequent correspondence with the Chief Marketing officer shows that the posting of an Egg-grading officer from his department was only a temporary measure and that the municipality should make its own arrangements in the matter

4 In case it is considered to incur some expenditure in this behalf cannot the arrangement for checking etc ,be made by paying a suitable allowance to one of the officers of the Marketing Department, so as to economise expenditure in view of the low finances of the Municipality?

The officer who is to be entrusted with this will have to be in the Examination room for a pretty long time The Market Sergeant who is the official who could be entrusted with the work cannot attend to this work as he has plenty of work and has to be on the move within the market premises to look to the Sanitation, discipline and collection of stall rent etc

5 In regard to the peon, cannot one of the existing peons of the

Devaraja market be detailed for duty in this connection?

The number of peons is too inadequa to attend to the work

In these circumstances I request that sanction of Government may kindly be accorded to the resolution of the Council
